

ENVIRONMENTAL POLICY STATEMENT

We are committed to minimize the impact of our activities, by reducing our environmental footprint and protecting the environment beyond regulatory compliance.

We strive to minimize the environmental risks that arise as a result of our operations, by using KLM's Risk Control Strategy, with source control as the preferred measure.

We endeavour to reduce our environmental footprint by implementing the following policies:

- adopt the best available technologies;
- strive to operate environmental efficient procedures;
- promote creativity and support innovation among all our employees, suppliers and subcontractors;
- promote environmental awareness among our employees and customers;
- request our suppliers and subcontractors to implement measures aimed at reducing the environmental impact of their activities.

By using the plan-do-check-act methodology and challenging ourselves, we ensure continuous improvement.

We expect our employees, suppliers and subcontractors to endorse the above commitments together with us, in order to implement this policy and pursue it company-wide in all our day-to-day activities.
